# AU BONHEUR DES DAMES

# THE VEJA STORY

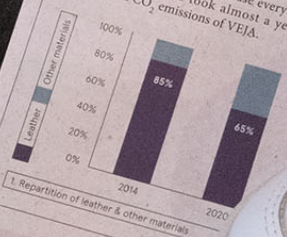

Since 2005, VEJA has been creating sneakers in a different way, mixing social projects, economic justice, and ecological materials. Using Brazilian and Peruvian organic cotton for the canvas and laces, Amazonian rubber for the soles, and various innovative materials such as recycled plastic bottles. VEJA sneakers are produced in high-standard factories in Brazil.

## REPAIR

In June 2020, VEJA chose Darwin cleaning and repairing store in Bordeaux to settle up an in-store cobbler. In 5 months, they repaired around 1 000 pairs of VEJA shoes. For those that cannot get fitting boxes to collect.

## VEJA'S CO<sub>2</sub> EMISSIONS

We believe the only way to defeat blind spots is to calculate everything and release everything. In 2019, our sourcing team took almost a year to deepen through all CO<sub>2</sub> emissions of VEJA.

Every source of CO<sub>2</sub> has been calculated and included in all that data.

Offices, showrooms, e-shop

↑ Rio Branco Gravel Ours Alveomesh

Nova High Peler Pierre, organic cotton

↑ V-12 Extra-White Steel, leather
